Your car donation can be a life-saving investment.

Car donations are an important source of funding for our life-saving education programs. A typical used car worth \$750 to \$1,000 can help save 30 or more lives through sidewalk counseling, education and evangelization. Even a junker can give new life to babies who might otherwise be aborted. You receive a tax deduction for your car's resale value, or \$500 -- whichever is greater. We handle pickup, repairs, and paperwork, including title change. And your return on investment is infinite -- in this life and hereafter!
